

# FIREWALL

## *Certificate*

Presented this 6<sup>th</sup> day of April 2022 to

## VMware

### VMware SD-WAN Edge™ Series

ICSA Labs is pleased to announce that the family of products named above attained certification following rigorous and thorough testing in the ICSA Labs Firewall Certification Testing Program.

A model from the family was recently tested against the requirements in version 4.2 of the ICSA Labs Corporate Firewall Testing Criteria.

At least one model from the family named above remains continuously deployed at ICSA Labs where it may be subjected to ongoing testing.

*Darren Hartman*

Darren Hartman, General Manager, ICSA Labs

Barring decertification during continued testing, this certificate is valid through March 30, 2024
